## REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

### Independent Auditors' Report

Governing Board  
San Francisco Unified School District  
San Francisco, California

#### **Report on the Audit of the Financial Statements**

##### ***Opinions***

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the San Francisco Unified School District, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the San Francisco Unified School District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the San Francisco Unified School District, as of June 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

##### ***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the San Francisco Unified School District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

##### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the San Francisco Unified School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user of the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the San Francisco Unified School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the San Francisco Unified School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as management's discussion and analysis, budgetary comparison information, schedule of changes in net OPEB liability and related ratios, schedules of proportionate share of net pension liability, and schedules of district contributions for pensions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the San Francisco Unified School District's basic financial statements. The supplementary information listed in the table of contents, including the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### **Other Information**

Management is responsible for the other information included in the annual report. The other information comprises the Local Education Agency Organization Structure but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

### **Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2025 on our consideration of the San Francisco Unified School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the San Francisco Unified School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering San Francisco Unified School District's internal control over financial reporting and compliance.

# **SAN FRANCISCO UNIFIED SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS**

## **INTRODUCTION**

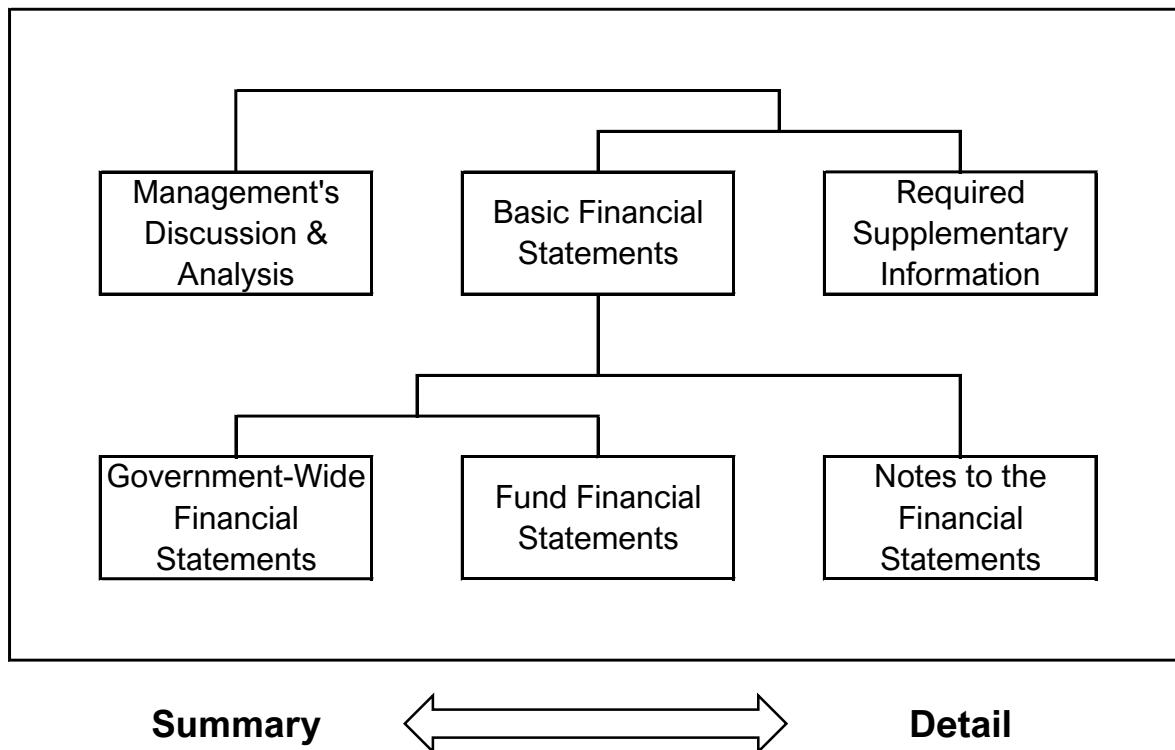

Our discussion and analysis of San Francisco Unified School District's (District) financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2024. It should be read in conjunction with the District's financial statements, which follow this section.

## **FINANCIAL HIGHLIGHTS**

- The District's net position was \$657,262,178 at June 30, 2024. This was an increase of \$328,791,498 from the prior year, after restatement.
- Overall revenues were \$1,569,024,923 which exceeded expenses of \$1,240,233,425.

**OVERVIEW OF FINANCIAL STATEMENTS (continued)**

**Components of the Financial Section (continued)**

This annual report consists of three parts – Management’s Discussion and Analysis (this section), the basic financial statements, and required supplementary information. The three sections together provide a comprehensive overview of the District. The basic financial statements are comprised of two kinds of statements that present financial information from different perspectives:

- **Government-wide financial statements**, which comprise the first two statements, provide both short-term and long-term information about the entity’s overall financial position.
- **Fund financial statements** focus on reporting the individual parts of District operations in more detail. The fund financial statements comprise the remaining statements.
  - ▶ **Governmental Funds** provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District’s programs.
  - ▶ **Proprietary Funds** report services for which the District charges customers a fee. Like the government-wide statements, they provide both long- and short-term financial information.
  - ▶ **Fiduciary Funds** report resources held for the benefit of parties outside of the District. Fiduciary funds are not reflected in the government-wide statement because the resources of the fund are not available to support the District’s own programs.

The financial statements also include notes that explain some of the information in the statements and provide more detailed data. The basic financial statements are followed by a section of required and other supplementary information that further explain and support the financial statements.

**Government-Wide Statements**

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government’s assets and liabilities. All of the current year’s revenues and expenses are accounted for in the statement of activities, regardless of when cash is received or paid.

The two government-wide statements report the District’s net position and how it has changed. Net position is one way to measure the District’s financial health. Over time, increases or decreases in the District’s net position are an indicator of whether its financial health is improving or deteriorating, respectively.

The government-wide financial statements of the District include governmental activities. All of the District’s basic services are included here, such as regular education, food service, maintenance and general administration. Local control formula funding and federal and state grants finance most of these activities.

**FINANCIAL ANALYSIS OF THE DISTRICT'S MAJOR FUNDS**

The financial performance of the District as a whole is reflected in its governmental funds as well. As the District completed this year, its governmental funds reported a combined fund balance of \$1,011,873,514, which is more than this year's restated beginning fund balance of \$938,198,835. The District's General Fund had \$48,730,827 more in operating revenues than expenditures for the year ended June 30, 2024. The District's Building Fund had \$41,938,319 less in operating revenues than expenditures for the year ended June 30, 2024.

**CURRENT YEAR BUDGET 2023-2024**

During the fiscal year, budget revisions and appropriation transfers are presented to the Board for their approval on a regular basis to reflect changes to both revenues and expenditures that become known during the year. In addition, the Board of Education approves financial projections included with the Adopted Budget, First Interim, and Second Interim financial reports. The Unaudited Actuals reflect the District's financial projections and current budget based on State and local financial information.

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

Several economic factors could impact California school district funding and the District's budget in the next fiscal year:

Long-term Declining Enrollment: Lower birth rates and increased migration out of state have resulted in long-term declining enrollment across California schools. Enrollment can fluctuate due to factors such as population growth, competition from private and parochial schools, inter-district transfers in or out, economic conditions, and housing values. Losses in enrollment will cause a school district to lose operating revenues without necessarily permitting the district to adjust fixed operating costs.

**SAN FRANCISCO UNIFIED SCHOOL DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS, continued  
FOR THE YEAR ENDED JUNE 30, 2024**

---

**ECONOMIC FACTORS AND NEXT YEAR'S BUDGET (continued)**

**Revenue Uncertainties:** Proposition 98 guarantees have improved over the 2023-24 fiscal year, but the prior 2022-23 revenues fell short of estimates, reducing the guarantee and resulting in the use of Proposition 98 reserves. California faced a significant budget deficit due to a severe revenue decline in 2022-23, driven mainly by lower income tax collections and economic downturns. However, recent tax forecasts show that actual revenues surpass projections. Surpluses could help fund more Proposition 98 revenue for school districts.

**Underfunded Pension Liabilities:** The District participates in state employee pension plans, California State Teachers' Retirement System (CalSTRS) and California Public Employees' Retirement System (CalPERS) and both are underfunded. The District's proportionate share of the liability is reported in the Statement of Net Position as of June 30, 2024. The amount of the liability is material to the District's financial position. The CalSTRS projected employer contribution rate for 2024-25 is 19.10 percent. The CalPERS projected employer contribution rate for 2024-25 is 27.05 percent. The projected increased pension costs to school employers remain a significant fiscal factor.

**Economic Downturn:** Higher borrowing costs and reduced investment have slowed economic activity, particularly affecting sectors like technology and startups, which are crucial to California's economy. The unemployment rate is up but might reverse with future jobs in the technology and aerospace industries.

**Federal Reserve Actions:** The Federal Reserve's interest rate hikes have increased borrowing costs, reducing investment and economic growth.

**Stock Market Performance:** The steep decline in the stock market in prior years has negatively impacted income tax collections from high-income Californians and corporations. Overall, market performance in 2024 is trending in a positive direction.

These factors contribute to a challenging fiscal environment, potentially affecting the state's ability to maintain or increase funding for school districts. All these factors were considered in preparing the District's 2024-25 fiscal year budget.

**CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT**

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. <b>Total Fund Balance - Governmental Funds</b>	<b>\$ 1,011,873,514</b>
--	-------------------------

Amounts reported for assets and liabilities for governmental activities in the statement of net position are different from amounts reported in governmental funds because:

Capital assets:

In governmental funds, only current assets are reported. In the statement of net position, all assets are reported, including capital assets, lease assets, subscription assets, accumulated depreciation and accumulated amortization:

Capital assets	\$ 2,950,909,555
Lease assets	2,816,404
Subscription assets	13,905,940
Accumulated depreciation	(977,065,599)
Accumulated amortization (lease assets)	(1,101,556)
Accumulated amortization (subscription assets)	<u>(6,782,921)</u>
	1,982,681,823

Deferred amount on refunding:

In governmental funds, the net effect of refunding bonds is recognized when debt is issued, whereas this amount is deferred and amortized in the government-wide financial statements:

(2,564,346)

Mandatory sinking fund:

In governmental funds, mandatory sinking fund payments are not reported. In the statement of net position, all assets are reported:

10,715,000

Unmatured interest on long-term debt:

In governmental funds, interest on long-term debt is not recognized until the period in which it matures and is paid. In the government-wide statement of activities, it is recognized in the period that it is incurred. The additional liability for unmatured interest owing at the end of the period was:

(1,687,804)

Long-term liabilities:

In governmental funds, only current liabilities are reported. In the statement of net position, all liabilities, including long-term liabilities, are reported. Long-term liabilities relating to governmental activities consist of:

Total general obligation bonds	\$ 1,041,836,108
Leases	1,506,258
Subscriptions	7,566,261
Compensated absences	14,603,149
Net OPEB liability	649,334,618
Net pension liability	<u>530,128,109</u>

---

Deferred outflows and inflows of resources relating to pensions:

In governmental funds, deferred outflows and inflows of resources relating to pensions are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to pensions are reported.

Deferred outflows of resources related to pensions	\$ 266,068,126
Deferred inflows of resources related to pensions	<u>(124,624,959)</u> 141,443,167

Deferred outflows and inflows of resources relating to OPEB:

In governmental funds, deferred outflows and inflows of resources relating to OPEB are not reported because they are applicable to future periods. In the statement of net position, deferred outflows and inflows of resources relating to OPEB are reported.

Deferred outflows of resources related to OPEB	\$ 173,553,906
Deferred inflows of resources related to OPEB	<u>(440,077,890)</u> (266,523,984)

Internal service funds:

Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost-recovery basis. Because internal service funds are presumed to operate for the benefit of governmental activities, assets, deferred outflows of resources, liabilities, and deferred inflows of resources of internal service funds are reported with governmental activities in the statement of net position. Net position for internal service funds is:

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES,  
AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES  
FOR THE YEAR ENDED JUNE 30, 2024**

**Net Change in Fund Balances - Governmental Funds** \$ 73,674,679

Amounts reported for governmental activities in the statement of activities are different from amounts reported in governmental funds because:

## Capital outlay:

In governmental funds, the costs of capital assets, including lease assets and subscription assets are reported as expenditures in the period when the assets are acquired. In the statement of activities, costs of capital assets, including lease assets and subscription assets are allocated over their estimated useful lives as depreciation expense and amortization expense, respectively. The difference between capital outlay expenditures and depreciation expense and amortization expense for the period is:

Expenditures for capital outlay:	\$ 84,469,730
Depreciation expense:	(72,560,851)
Amortization expense (lease assets):	(478,351)
Amortization expense (subscription assets):	(3,724,035) 7,706,493

#### Mandatory sinking fund payments:

In governmental funds, mandatory sinking fund payments of general obligation bonds are reported as expenditures. In the government-wide statements, mandatory sinking fund payments are reported as additions of assets. Expenditures for mandatory sinking fund payments were:

10,715,000

## Debt service:

In governmental funds, repayments of long-term debt are reported as expenditures. In the government-wide statements, repayments of long-term debt are reported as reductions of liabilities. Expenditures for repayment of the principal portion of long-term debt were:

88,737,600

## Debt proceeds:

In governmental funds, proceeds from debt are recognized as Other Financing Sources. In the government-wide statements, proceeds from debt are reported as increases to liabilities. Amounts recognized in governmental funds as proceeds from debt, net of issue premium or discount, were:

(1,862,582)

#### Deferred amounts on refunding:

In governmental funds, deferred amounts on refunding are recognized in the period they are incurred. In the government-wide statements, the deferred amounts on refunding are amortized over the life of the debt. The net effect of the deferred amounts on refunding during the period was:

(180,334)

Unmatured interest on long-term debt:

In governmental funds, interest on long-term debt is recognized in the period that it becomes due. In the government-wide statement of activities, it is recognized in the period it is incurred. Unmatured interest owing at the end of the period, less matured interest paid during the period but owing from the prior period, was:

93,084

Compensated absences:

In governmental funds, compensated absences are measured by the amounts paid during the period. In the statement of activities, compensated absences are measured by the amount earned. The difference between compensated absences paid and compensated absences earned, was:

(1,190,096)

Postemployment benefits other than pensions (OPEB):

In governmental funds, OPEB expenses are recognized when employer OPEB contributions are made. In the statement of activities, OPEB expenses are recognized on the accrual basis. This year, the difference between OPEB expenses and actual employer OPEB contributions was:

45,451,248

Pensions:

In governmental funds, pension costs are recognized when employer contributions are made. In the government-wide statement of activities, pension costs are recognized on the accrual basis. This year, the difference between accrual-basis pension costs and employer contributions was:

85,766,388

Amortization of debt issuance premium or discount:

In governmental funds, if debt is issued at a premium or at a discount, the premium or discount is recognized as an Other Financing Source or an Other Financing Use in the period it is incurred. In the government-wide statements, the premium or discount is amortized over the life of the debt. Amortization of premium or discount for the period is:

10,339,644

Internal Service Funds:

Internal service funds are used to conduct certain activities for which costs are charged to other funds on a full cost-recovery basis. Because internal service funds are presumed to benefit governmental activities, internal service activities are reported as governmental in the statement of activities. The net increase or decrease in internal service funds was:

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**A. Financial Reporting Entity**

The San Francisco Unified School District (the “District”) accounts for its financial transactions in accordance with the policies and procedures of the Department of Education’s *California School Accounting Manual*. The accounting policies of the District conform to generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).

The District was established as the San Francisco School System in 1851 under the laws of the State of California. The District and County Office of Education (COE) operate under a locally elected seven-member Board form of government and provide educational services to grades K – 12 as mandated by state and federal agencies. The District and COE provide childcare, elementary and secondary education in the City and County of San Francisco, California. As of the prior fiscal year, the District operates 8 alternatively configured (TK-8), 64 elementary schools, 13 middle schools, 17 senior high schools (including two continuation schools and an independent study school), 8 court and county community schools, 34 state-funded preschool sites, and 12 early education centers. The District sponsors 14 independent charter schools.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments and agencies that are not legally separate from the District. For the District, this includes general operations, food service, and student-related activities.

**B. Component Units**

Component units are legally separate organizations for which the District is financially accountable. Component units may also include organizations that are fiscally dependent on the District in that the District approves their budget, the issuance of their debt or the levying of their taxes. In addition, component units are other legally separate organizations for which the District is not financially accountable but the nature and significance of the organization’s relationship with the District is such that exclusion would cause the District’s financial statements to be misleading or incomplete. The District has no such component units.

**C. Basis of Presentation**

**Government-Wide Statements.** The statement of net position and the statement of activities display information about the primary government (the District). These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Governmental activities generally are financed through taxes, intergovernmental revenue, and other non-exchange transactions.

The statement of activities presents a comparison between direct expenses and program revenue for each function of the District’s governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reserved for the statement of activities. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting of operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**C. Basis of Presentation (continued)**

**Fund Financial Statements.** The fund financial statements provide information about the District's funds, including its proprietary and fiduciary funds. Separate statements for each fund category – governmental, proprietary and fiduciary – are presented. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

Governmental funds are used to account for activities that are governmental in nature. Governmental activities are typically tax-supported and include education of pupils, operation of food service and child development programs, construction and maintenance of school facilities, and repayment of long-term debt.

Proprietary funds are used to account for activities that are more business-like than government-like in nature. Business-type activities include those for which a fee is charged to external users or to other organizational units of the District, normally on a full cost-recovery basis. Proprietary funds are generally intended to be self-supporting.

Fiduciary funds are used to account for resources held for the benefit of parties outside of the District that cannot be used to support the District's own programs.

**Major Governmental Funds**

**General Fund:** The General Fund is the main operating fund of the District. It is used to account for all activities except those that are required to be accounted for in another fund. In keeping with the minimum number of funds principle, all of the District's activities are reported in the General Fund unless there is a compelling reason to account for an activity in another fund. A District may have only one General Fund.

**Building Fund:** This fund exists primarily to account separately for proceeds from the sale of bonds (*Education Code Section 15146*) and may not be used for any purposes other than those for which the bonds were issued. Other authorized revenues to the Building Fund are proceeds from the sale or lease-with-option-to-purchase of real property (*Education Code Section 17462*) and revenue from rentals and leases of real property specifically authorized for deposit into the fund by the governing board (*Education Code Section 41003*).

**Non-Major Governmental Funds**

**Special Revenue Funds:** Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects. The District maintains the following special revenue funds:

**Student Activity Fund:** This fund may be used to account for student body activities that do not meet the fiduciary criteria established in GASB Statement No. 84.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**C. Basis of Presentation (continued)**

**Non-Major Governmental Funds (continued)**

**Special Revenue Funds (continued)**

**County School Service Fund:** The County School Service Fund is used to account for resources committed to special education or other school programs that would otherwise be operated by a county office of education, as well as to general and administrative oversight.

**Adult Education Fund:** This fund is used to account separately for federal, state, and local revenues for adult education programs. Money in this fund shall be expended for adult education purposes only. Moneys received for programs other than adult education shall not be expended for adult education (*Education Code Sections 52616[b] and 52501.5[a]*).

**Child Development Fund:** This fund is used to account separately for federal, state, and local revenues to operate child development programs. All moneys received by the District for, or from the operation of, child development services covered under the Child Care and Development Services Act (*Education Code Section 8200 et seq.*) shall be deposited into this fund. The moneys may be used only for expenditures for the operation of child development programs. The costs incurred in the maintenance and operation of child development services shall be paid from this fund, with accounting to reflect specific funding sources (*Education Code Section 8328*).

**Cafeteria Fund:** This fund is used to account separately for federal, state, and local resources to operate the food service program (*Education Code Sections 38090–38093*). The Cafeteria Fund shall be used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code Sections 38091 and 38100*).

**Deferred Maintenance Fund:** This fund is used to account separately for state apportionments and the District's contributions for deferred maintenance purposes (*Education Code Sections 17582–17587*). In addition, whenever the state funds provided pursuant to *Education Code Sections 17584 and 17585* (apportionments from the State Allocation Board) are insufficient to fully match the local funds deposited in this fund, the governing board of a school district may transfer the excess local funds deposited in this fund to any other expenditure classifications in other funds of the District (*Education Code Sections 17582 and 17583*).

**Capital Project Funds:** Capital project funds are established to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

**Capital Facilities Fund:** This fund is used primarily to account separately for moneys received from fees levied on developers or other agencies as a condition of approving a development (*Education Code Sections 17620–17626*). The authority for these levies may be county/city ordinances (*Government Code Sections 65970–65981*) or private agreements between the District and the developer. Interest earned in the Capital Facilities Fund is restricted to that fund (*Government Code Section 66006*).

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**C. Basis of Presentation (continued)**

**Non-Major Governmental Funds (continued)**

**Capital Projects Funds (continued)**

**State School Building Lease-Purchase Fund:** This fund is used primarily to account separately for state apportionments for the reconstruction, remodeling, or replacing of existing school buildings or the acquisition of new school sites and buildings, as provided in the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (*Education Code Section 17000 et seq.*).

**County School Facilities Fund:** This fund is established pursuant to *Education Code Section 17070.43* to receive apportionments from the 1998 State School Facilities Fund (Proposition 1A), the 2002 State School Facilities Fund (Proposition 47), or the 2004 State School Facilities Fund (Proposition 55) authorized by the State Allocation Board for new school facility construction, modernization projects, and facility hardship grants, as provided in the Leroy F. Greene School Facilities Act of 1998 (*Education Code Section 17070 et seq.*).

**Special Reserve Fund for Capital Outlay Projects:** This fund exists primarily to provide for the accumulation of General Fund moneys for capital outlay purposes (*Education Code Section 42840*).

**Capital Projects Fund for Blended Component Units:** This fund is used to account for capital projects financed by Mello-Roos Community Facilities Districts and similar entities that are considered blended component units of the District under generally accepted accounting principles (GAAP).

**Debt Service Funds:** Debt service funds are established to account for the accumulation of resources for and the payment of principal and interest on general long-term debt.

**Bond Interest and Redemption Fund:** This fund is used for the repayment of bonds issued for the District (*Education Code Sections 15125–15262*). The board of supervisors of the county issues the bonds. The proceeds from the sale of the bonds are deposited in the county treasury to the Building Fund of the District. Any premiums or accrued interest received from the sale of the bonds must be deposited in the Bond Interest and Redemption Fund of the District. The county auditor maintains control over the District's Bond Interest and Redemption Fund. The principal and interest on the bonds must be paid by the county treasurer from taxes levied by the county auditor-controller.

**Tax Override Fund:** This fund is used for the repayment of voted indebtedness (other than Bond Interest and Redemption Fund repayments) to be financed from ad valorem tax levies. An example is a public school building loan repayment.

**Proprietary Funds**

**Internal Service Funds:** Internal service funds are created principally to render services to other organizational units of the District on a cost-reimbursement basis. These funds are designed to be self-supporting with the intent of full recovery of costs, including some measure of the cost of capital assets, through user fees and charges.

**Self-Insurance Fund:** Self-insurance funds are used to separate moneys received for self-insurance activities from other operating funds of the District. Separate funds may be established for each type of self-insurance activity, such as workers' compensation, health and welfare, and deductible property loss (*Education Code Section 17566*).

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**C. Basis of Presentation (continued)**

**Fiduciary Funds**

Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension (and other employee benefit) trust funds, investment trust funds, private-purpose trust funds and custodial funds. Trust funds are distinguished from custodial funds by the existence of a trust agreement or equivalent arrangements that have certain characteristics. Custodial funds are used to report fiduciary activities that are not required to be reported in a trust fund.

**Warrant/Pass-through Custodial Fund:** The warrant/pass-through fund is used to account for assets held for external charter school employees for payroll withholding for subsequent remittance to taxing agencies or benefit providers.

**D. Basis of Accounting – Measurement Focus**

**Government-Wide, Proprietary Fund, and Fiduciary Fund Financial Statements**

The government-wide, proprietary fund, and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide, proprietary fund, and fiduciary fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Net Position equals assets and deferred outflows of resources minus liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. The net position should be reported as restricted when constraints placed on its use are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities results from special revenue funds and the restrictions on their use.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the internal service fund are charges to other funds for self-insurance costs. Operating expenses for internal service funds include the costs of insurance premiums and claims related to self-insurance.

**Governmental Funds**

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Governmental funds use the modified accrual basis of accounting.

NOTES TO FINANCIAL STATEMENTS, continued  
JUNE 30, 2024**

---

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**D. Basis of Accounting – Measurement Focus (continued)**

**Revenues – Exchange and Non-Exchange Transactions**

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded under the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. "Available" means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. Generally, "available" means collectible within the current period or within 60 days after year-end. However, to achieve comparability of reporting among California school districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for school districts as collectible within one year.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, and entitlements. Under the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from the grants and entitlements is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Eligibility requirements include timing requirements, which specify the year when the resources are to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. Under the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

**Unearned Revenue**

Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Certain grants received that have not met eligibility requirements are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

**Expenses/Expenditures**

On the accrual basis of accounting, expenses are recognized at the time a liability is incurred. On the modified accrual basis of accounting, expenditures are generally recognized in the accounting period in which the related fund liability is incurred, as under the accrual basis of accounting. However, under the modified accrual basis of accounting, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds. When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position**

**Cash and Cash Equivalents**

The District's cash and cash equivalents consist of cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

**Investments**

Investments with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in county and State investment pools are determined by the program sponsor.

**Leases Receivable**

Leases receivable are measured at the present value of lease payments expected to be received during the lease term, reduced by any provision for estimated uncollectable amounts. An associated deferred inflow of resources is recorded at the initiation of the lease in an amount equal to the initial recording of the lease receivable, plus any prepayments at the beginning of the lease. The deferred inflow is amortized using a straight-line basis over the term of the lease.

**Inventories**

Inventories are recorded using the purchases method in that the cost is recorded as an expenditure at the time the individual inventory items are requisitioned. Inventories are valued at historical cost and consist of expendable supplies held for consumption.

**Capital Assets**

The accounting and reporting treatment applied to the capital assets associated with a fund is determined by its measurement focus. Capital assets are reported in the governmental activities column of the government-wide statement of net position but are not reported in the fund financial statements.

Capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their acquisition value as of the date received. The District maintains a capitalization threshold of \$25,000. The District does not own any infrastructure as defined in GASB Statement No. 34. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. All reported capital assets, except for land and construction in progress, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Life</u>
Buildings	20 to 50 years
Improvements/Infrastructure	5 to 50 years
Equipment	2 to 15 years

Included in capital assets are right to use lease assets as a result of implementing GASB Statement No. 87. The right to use lease assets are initially measured at an amount equal to the initial measurement of the related lease liability plus any lease payments made prior to the lease term, less lease incentives, plus ancillary charges necessary to place the lease into service. The right to use lease assets are amortized on a straight-line basis over the life of the related lease.

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)**

**Interfund Balances**

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "Due from other funds/Due to other funds." These amounts are eliminated in the governmental activities columns of the statement of net position.

**Compensated Absences**

Accumulated unpaid employee vacation benefits are accrued as a liability as the benefits are earned. The entire compensated absence liability is reported on the government-wide financial statements. For governmental funds, the current portion of unpaid compensated absences is recognized upon the occurrence of relevant events such as employee resignations and retirements that occur prior to year-end that have not yet been paid with expendable available financial resource. These amounts are recorded in the fund from which the employees who have accumulated leave are paid.

Accumulated sick leave benefits are not recognized as liabilities of the District. The District's policy is to record sick leave as an operating expense in the period taken because such benefits do not vest, nor is payment probable; however, unused sick leave is added to the creditable service period for calculation of retirement benefits when the employee retires.

**Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

**Postemployment Benefits Other Than Pensions (OPEB)**

For purposes of measuring the net OPEB liability, deferred outflows of resources related to OPEB and deferred inflows of resources related to OPEB, and OPEB expense have been determined by an independent actuary. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms.

Generally accepted accounting principles require the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2023
Measurement Date	June 30, 2023
Measurement Period	July 1, 2022 – June 30, 2023

Gains and losses related to changes in net OPEB liability are recognized in OPEB expense systematically over time. The first amortized amounts are recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The amortization period differs depending on the source of gain or loss. The difference between projected and actual earnings is amortized on a straight-line basis over five years. All other amounts are amortized on a straight-line basis over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) at the beginning of the measurement period.

---

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)**

**Premiums and Discounts**

In the government-wide and proprietary fund financial statements, long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method.

**Deferred Outflows/Deferred Inflows of Resources**

In addition to assets, the District will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the District will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

**Pensions**

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the defined benefit pension plans (the Plans) of the California State Teachers' Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

**Fund Balance**

Fund balance is divided into five classifications based primarily on the extent to which the District is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

*Nonspendable* - The nonspendable fund balance classification reflects amounts that are not in spendable form. Examples include inventory, lease receivables (net of related deferred inflows), prepaid items, the long-term portion of loans receivable, and nonfinancial assets held for resale. This classification also reflects amounts that are in spendable form but that are legally or contractually required to remain intact, such as the principal of a permanent endowment.

*Restricted* - The restricted fund balance classification reflects amounts subject to externally imposed and legally enforceable constraints. Such constraints may be imposed by creditors, grantors, contributors, or laws or regulations of other governments, or may be imposed by law through constitutional provisions or enabling legislation.

**SAN FRANCISCO UNIFIED SCHOOL DISTRICT

JUNE 30, 2024**

---

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**E. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, Fund Balance and Net Position (continued)**

**Fund Balance (continued)**

*Committed* - The committed fund balance classification reflects amounts subject to internal constraints self-imposed by formal action of the Governing Board. The constraints giving rise to committed fund balance must be imposed no later than the end of the reporting period. The actual amounts may be determined subsequent to that date but prior to the issuance of the financial statements. In contrast to restricted fund balance, committed fund balance may be redirected by the government to other purposes as long as the original constraints are removed or modified in the same manner in which they were imposed, that is, by the same formal action of the Governing Board.

*Assigned* - The assigned fund balance classification reflects amounts that the government *intends* to be used for specific purposes. Assignments may be established either by the Governing Board or by a designee of the governing body and are subject to neither the restricted nor committed levels of constraint. In contrast to the constraints giving rise to committed fund balance, constraints giving rise to assigned fund balance are not required to be imposed, modified, or removed by formal action of the Governing Board. The action does not require the same level of formality and may be delegated to another body or official. Additionally, the assignment need not be made before the end of the reporting period, but rather may be made any time prior to the issuance of the financial statements.

*Unassigned* - In the General Fund only, the unassigned fund balance classification reflects the residual balance that has not been assigned to other funds and that is not restricted, committed, or assigned to specific purposes. However, deficits in any fund, including the General Fund that cannot be eliminated by reducing or eliminating amounts assigned to other purposes are reported as negative unassigned fund balance.

The District applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

**F. Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented in the financial statements. Interfund transfers are eliminated in the governmental activities columns of the statement of activities.

**G. Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS, continued  
JUNE 30, 2024**

---

**NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**H. Budgetary Data**

The budgetary process is prescribed by provisions of the California Education Code and requires the governing board to hold a public hearing and adopt an operating budget no later than July 1 of each year. The District governing board satisfied these requirements. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for. For purposes of the budget, on-behalf payments have not been included as revenue and expenditures as required under generally accepted accounting principles.

**I. Property Tax**

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County Auditor-Controller bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

**J. New Accounting Pronouncements**

**GASB Statement No. 99** – In April 2022, GASB issued Statement No. 99, *Omnibus 2022*. The objectives of this statement are to enhance comparability in accounting and financial reporting and to improve the consistency of authoritative literature by addressing (1) practice issues that have been identified during implementation and application of certain GASB Statements and (2) accounting and financial reporting for financial guarantees. The statement addresses various practice issues, including: (a) clarification of provisions in Statement No. 87, *Leases*, as amended, related to the determination of the lease term, classification of a lease as a short-term lease, recognition and measurement of a lease liability and a lease asset, and identification of lease incentives, (b) disclosures related to nonmonetary transactions; clarification of provisions in Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis—for State and Local Governments*, as amended, related to the focus of the government-wide financial statements, (c) terminology updates related to certain provisions of Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, and (d) terminology used in Statement 53 to refer to resource flows statements. A portion of this statement was effective upon issuance, while the remaining portions of this statement were effective for periods beginning after June 15, 2022 and for periods beginning after June 15, 2023. The District has fully implemented this Statement as of June 30, 2024.

**GASB Statement No. 100** – In June 2022, GASB issued Statement No. 100, *Accounting Changes and Error Corrections* – an amendment of GASB Statement No. 62. The primary objective of this statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. This statement is effective for periods beginning after June 15, 2023. The District has fully implemented this Statement as of June 30, 2024.

**J. New Accounting Pronouncements (continued)**

**GASB Statement No. 101** – In June 2022, GASB issued Statement No. 101, *Compensated Absences*. The objective of this statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This statement is effective for periods beginning after December 15, 2023. The District has not yet determined the impact on the financial statements.

**GASB Statement No. 102** – In December 2023, GASB issued Statement No. 102, *Certain Risk Disclosures*. This Statement requires a government to assess whether a concentration or constraint makes the primary government reporting unit or other reporting units that report a liability for revenue debt vulnerable to the risk of a substantial impact. Additionally, this Statement requires a government to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued. This statement is effective for periods beginning after June 15, 2024. The District has not yet determined the impact on the financial statements.

**GASB Statement No. 103** – In April 2024, GASB issued Statement No. 103, *Financial Reporting Model Improvements*. The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. The statement is effective for periods beginning after June 15, 2025. The District has not yet determined the impact on the financial statements.

**NOTE 2 – CASH AND INVESTMENTS (continued)**

**B. Policies and Practices**

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the state; U.S. Treasury instruments; registered state warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; collateralized mortgage obligations; and the County Investment Pool.

**Investment in County Treasury** – The District maintains substantially all of its cash in the County Treasury in accordance with *Education Code Section 41001*. The San Francisco County Treasurer's pooled investments are managed by the County Treasurer who reports on a monthly basis to the board of supervisors. In addition, the function of the County Treasury Oversight Committee is to review and monitor the County's investment policy. The committee membership includes the Treasurer and Tax Collector, the Auditor-Controller, Chief Administrative Officer, Superintendent of Schools Representative, and a public member. The fair value of the District's investment in the pool is based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

**C. General Authorizations**

Except for investments by trustees of debt proceeds, the authority to invest District funds deposited with the county treasury is delegated to the County Treasurer and Tax Collector. Additional information about the investment policy of the County Treasurer and Tax Collector may be obtained from its website. The table below identifies the investment types permitted by California Government Code.

**NOTE 2 – CASH AND INVESTMENTS (continued)**

**D. Interest Rate Risk**

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by investing in the County Treasury. The District maintains a pooled investment with the County Treasury with a fair value of approximately \$1,131,857,535. The average weighted maturity for this pool is 457 days.

**E. Credit Risk**

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investments in the County Treasury are not required to be rated. As of June 30, 2024, the pooled investments in the County Treasury were not rated.

**F. Custodial Credit Risk – Deposits**

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agencies. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2024, the District's cash in bank balance of \$3,730,993 was exposed to custodial credit risk.

**G. Fair Value**

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices (unadjusted) in active markets for identical assets.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, either directly or indirectly.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonable available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

**NOTE 2 – CASH AND INVESTMENTS (continued)**

**G. Fair Value (continued)**

Uncategorized - Investments in the San Francisco County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

The District's fair value measurements at June 30, 2024 were as follows:

**NOTE 8 – LONG-TERM LIABILITIES (continued)**

**A. General Obligation Bonds (continued)**

**Proposition A, Election of 2006, Series D (2010) General Obligation Bonds**

The Series D Term Bond maturing on June 15, 2030 is subject to mandatory sinking fund redemption prior to the stated maturity in part at a redemption price equal to 100% of the principal amount to be redeemed, together with accrued interest thereon to the date fixed for redemption, without premium. The first mandatory sinking fund payment of \$10,715,000 was made on June 15, 2024 and is reported as cash and investments on the District's Statement of Net Position as of June 30, 2024.

**Refunding Bonds**

On May 12, 2022, the District issued \$122,050,000 in general obligation bonds with an interest rate of 5.00 percent to advance refund \$186,745,000 million of Proposition A, Election of 2011 Series B (2014) with an interest rate range of 5.00 percent to 4.24 percent. The net proceeds of \$137,326,631 (including premiums and funds related to the prior bonds of \$15,880,270 and costs of issuance of \$603,949) were used to purchase U.S. government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on certain of the Refunded Bonds. As a result, the refunded portion of the bonds are considered to be defeased and the liability for the defeased bonds is not reported on the statement of net position.

The advance refunding resulted in a difference between the reacquisition price of the new debt (\$137,326,631 placed with the escrow agent) and the net carrying amount of the old debt (\$142,578,290 of bond principal and unamortized bond premiums) in the amount of \$5,251,659. The advance refunding decreases the total debt service payments, inclusive of principal and interest, over the next 11 years by \$7,502,856 and results in an economic gain (difference between the present values of the old and new debt service payments) of \$5,665,349.

**B. Leases**

The District entered into various agreements to lease certain equipment and buildings. The lease agreements qualify as other than short-term leases under GASB No. 87 and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception.

The future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2024, were as follows:

<b>Year Ended June 30,</b>	<b>Lease Payment</b>
2025	\$ 587,831
2026	586,043
2027	284,852

Present value of minimum subscription payments	\$ 7,566,261

**D. Compensated Absences**

Total unpaid employee compensated absences as of June 30, 2024 amounted to \$14,603,149. This amount is included as part of long-term liabilities in the government-wide financial statements.

**E. Other Postemployment Benefits**

The District's beginning net OPEB liability was \$898,812,305 and decreased by \$249,477,687 during the year ended June 30, 2024. The ending net OPEB liability at June 30, 2024 was \$649,334,618. See Note 10 for additional information regarding the net OPEB liability.

**F. Net Pension Liability**

The District's beginning net pension liability was \$626,287,566 and decreased by \$96,159,457 during the year ended June 30, 2024. The ending net pension liability at June 30, 2024 was \$530,128,109. See Note 11 for additional information regarding the net pension liability.

**F. Net OPEB Liability**

The components of the net OPEB liability of the District at June 30, 2024, were as follows:

Total OPEB liability	\$ 732,618,326
Plan fiduciary net position	(83,283,708)
<b>District's net OPEB liability</b>	<b><u>\$ 649,334,618</u></b>
Plan fiduciary net position as a percentage of total OPEB liability	11.37%

**G. Investments**

**Investment Policy**

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of the valuation date.

**Concentrations**

The Plan's assumed asset allocation and assumed rate of return for each is as follows:

Asset Class	Percentage of Portfolio	Assumed Gross Return
All Equities	40.00%	7.55%
All Fixed Income	43.00%	4.25%
Real Estate Investment Trusts	8.00%	7.25%
All Commodities	4.00%	7.55%
Treasury Inflation Protected Securities (TIPS)	5.00%	3.00%

**Rate of Return**

For the year ended, June 30, 2024, the annual money-weighted rate of return on investments, net of investment expense, was 6.25 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

**Economic assumptions:**

Inflation	2.50%
Salary increases	2.75%
Discount rate	5.40%
Healthcare cost trend rate	4.00%

**Non-economic assumptions:**

The actuarial assumptions used in the June 30, 2023 valuation were based on a review of plan experience during the period July 1, 2021 to June 30, 2023.

The discount rate was based on the Bond Buyer 20 Bond Index. The actuary assumed contributions would be sufficient to fully fund the obligation over a period not to exceed thirty-four years.

**NOTE 11 – PENSION PLANS (continued)**

**A. California State Teachers' Retirement System (CalSTRS) (continued)**

**Benefits Provided**

The CalSTRS defined benefit plan has two benefit formulas:

1. CalSTRS 2% at 60: Members first hired on or before December 31, 2012, to perform service that could be creditable to CalSTRS. CalSTRS 2% at 60 members are eligible for normal retirement at age 60, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. Early retirement options are available at age 55 with five years of credited service or as early as age 50 with 30 years of credited service. The age factor for retirements after age 60 increases with each quarter year of age to 2.4 percent at age 63 or older. Members who have 30 years or more of credited service receive an additional increase of up to 0.2 percent to the age factor, known as the career factor. The maximum benefit with the career factor is 2.4 percent of final compensation.
2. CalSTRS 2% at 62: Members first hired on or after January 1, 2013, to perform service that could be creditable to CalSTRS. CalSTRS 2% at 62 members are eligible for normal retirement at age 62, with a minimum of five years of credited service. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service. An early retirement option is available at age 55. The age factor for retirement after age 62 increases with each quarter year of age to 2.4 percent at age 65 or older.

**Contributions**

Active plan CalSTRS 2% at 60 and 2% at 62 members are required to contribute 10.25% and 10.205% of their salary for fiscal year 2024, respectively, and the District is required to contribute an actuarially determined rate. The actuarial methods and assumptions used for determining the rate are those adopted by CalSTRS Teachers' Retirement Board. The required employer contribution rate for fiscal year 2024 was 19.10% of annual payroll. The contribution requirements of the plan members are established by state statute. Contributions to the plan from the District were \$90,143,685 for the year ended June 30, 2024.

**On-Behalf Payments**

The District was the recipient of on-behalf payments made by the State of California to CalSTRS for K-12 education. These payments consist of state general fund contributions of approximately \$40,614,787 to CalSTRS.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2024, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the net pension liability	\$ 530,024,317

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (continued)**

The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2022 and rolling forward the total pension liability to June 30, 2023. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. At June 30, 2023, the District's proportion was 0.696 percent, which was a decrease of 0.097 percent from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the District recognized pension expense of \$92,805,154. In addition, the District recognized pension expense and revenue of \$(3,687,889) for support provided by the State. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences between projected and actual earnings on plan investments	\$ -	\$ 2,268,719

The \$90,143,685 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

**Actuarial Assumptions**

The total pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2022, and rolling forward the total pension liability to June 30, 2023 using the following actuarial assumptions, applied to all periods included in the measurement:

Consumer Price Inflation	2.75%
Investment Rate of Return*	7.10%
Wage Inflation	3.50%

\* Net of investment expenses, but gross of administrative expenses.

CalSTRS uses custom mortality tables to best fit the patterns of mortality among its members. These custom tables are based on MP-2016 series tables adjusted to fit CalSTRS experience.

The actuarial assumptions used in the June 30, 2022 valuation were based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2018.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best-estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance–PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in January 2023 in conjunction with the most recent experience study. For each current and future valuation, CalSTRS' independent consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of expected 20-year geometrically linked real rates of return and the assumed asset allocation for each major asset class as of June 30, 2022, are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return*
Public Equity	38%	5.25%
Real Estate	15%	4.05%
Private Equity	14%	6.75%
Fixed Income	14%	2.45%
Risk Mitigating Strategies	10%	2.25%
Inflation Sensitive	7%	3.65%
Cash/Liquidity	2%	0.05%
	100%	

\*Real return is net of assumed 2.75% inflation.

**NOTE 11 – PENSION PLANS (continued)**

**A. California State Teachers' Retirement System (CalSTRS) (continued)**

**Discount Rate**

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at statutory contribution rates in accordance with the rate increases per AB 1469. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments, and administrative expense occur midyear. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine the total pension liability.

**Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate**

The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	<b>1% Decrease (6.10%)</b>	<b>Current Discount Rate (7.10%)</b>	<b>1% Increase (8.10%)</b>
District's proportionate share of the net pension liability	\$ 889,073,497	\$ 530,024,317	\$ 231,792,124

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalSTRS financial report.

**NOTE 11 – PENSION PLANS (continued)**

**B. San Francisco Employees' Retirement System (SFERS)**

**Plan Description**

The San Francisco City and County Employees' Retirement System (Retirement System) administers a cost-sharing multiple-employer defined benefit pension plan (Plan) established to provide pension benefits for substantially all employees of the City and County of San Francisco (City and County), certain classified and certificated employees of the Community College and Unified School Districts, and San Francisco Trial Court employees other than judges. The Retirement System provides service retirement, disability, and death benefits based on specified percentages of defined final average monthly salary and annual cost of living adjustments after retirement. The City and County Charter (Charter) and the Administrative Code are the authorities that establish and amend the benefit provisions and the employer and member obligations to the Plan.

The Retirement System is administered by the Executive Director, an employee of the City and County, in accordance with the provisions of the Charter and Administrative Code, and the policies and regulations of the Retirement Board. The Retirement Board is composed of seven members: three members elected by the active and retired members of the Retirement System; three members appointed by the Mayor in accordance with Section 12.100 of the San Francisco City Charter, and one member of the Board of Supervisors appointed by the President of the Board of Supervisors.

**Benefits Provided**

The retirement system provides service retirement, disability, and death benefits based on specified percentages of defined final average monthly salary and annual cost-of-living adjustments after retirement. Employees with 20 years of service who have attained age 50 or those with 10 years of service who have attained age 60 are eligible for retirement benefits. The City Charter and the Administrative Code are the authorities that establish and amend the benefit provisions of the plan and employer and member obligations to the plan.

The membership groups and the related service retirement benefits are included in the notes to the basic financial statements of the retirement system, which are available on the SFERS website.

All retired members receive a benefit adjustment each July 1, which is the basic cost of living adjustment (COLA). The majority of adjustments are determined by changes in the Consumer Price Index with increases capped at 2%. The Plan provides for a supplemental COLA in years when there are sufficient "excess" investment earnings in the Plan and the Plan is fully funded on a market value of assets basis. The maximum benefit adjustment is 3.5% including that Basic COLA. For members hired on or after January 7, 2012, supplemental COLAs will not be permanent adjustments to retirement benefits.

**Contributions**

Contributions are made to the plan by both the employers and the participating employees. The basic employer contributions are the amounts deemed necessary, on an actuarial basis using the entry age normal cost method, to provide the plan with assets sufficient to pay the basic benefits that are not provided for by employees' contributions. Employee and employer contributions are mandatory, as required by the City Charter. The District's contributions to SFERS, for the year ended June 30, 2024 were \$19,927,348. Employee contribution rates for fiscal year 2023-2024 varied from 7.5% to 11.0% as a percentage of gross covered salary. The District is required to contribute at an actuarially determined rate. The required employer contribution rate for fiscal year 2023-2024 was 25.74%.

**NOTE 11 – PENSION PLANS (continued)**

**B. San Francisco Employees' Retirement System (SFERS) (continued)**

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2024, the District reported a liability of \$103,792 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023, and the total pension liability used to calculate the net pension liability was determined by applying update procedures to an actuarial valuation as of June 30, 2022 and rolling forward the total pension liability to June 30, 2023. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating agencies, actuarially determined. At June 30, 2023, the District's proportion was 2.848 percent, which was an increase of 0.042 percent from its proportion measured as of June 30, 2022.

For the year ended June 30, 2024, the District recognized pension expense of \$(68,500,509). At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
Differences between projected and actual earnings on plan investments	\$ 19,642,866	\$ -
Differences between expected and actual experience	11,152,339	-
Changes in assumptions	13,432,806	6,128,949
Changes in proportion and differences between District contributions and proportionate share of contributions	-	22,790,476
District contributions subsequent to the measurement date	19,927,348	-
<b>Total</b>	<b>\$ 64,155,359</b>	<b>\$ 28,919,425</b>

The \$19,927,348 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2025. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<b>Year Ended June 30,</b>	<b>Deferred Outflows of Resources</b>	<b>Deferred Inflows of Resources</b>
2025	\$ 3,450,402	\$ 13,092,394
2026	(3,273,680)	10,222,450
2027	38,454,326	5,604,581
2028	5,596,963	-
<b>Total</b>	<b>\$ 44,228,011</b>	<b>\$ 28,919,425</b>

**NOTE 11 – PENSION PLANS (continued)**

**B. San Francisco Employees' Retirement System (SFERS) (continued)**

**Actuarial Assumptions**

The total pension liability was determined by applying update procedures to an actuarial valuation as of July 1, 2022, and rolling forward the total pension liability to June 30, 2023 using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Discount Rate	7.20%
Salary Increases	3.25% plus merit component based on employee classification and years of service

For General healthy annuitants, the sex distinct 2010 Pub-G healthy annuitant mortality table, adjusted 0.977 for females and 1.031 for males. For Safety healthy annuitants, the sex distinct 2010 Pub-S healthy annuitant mortality table, adjusted 1.044 for females and 0.947 for males.

For General active members, the sex distinct 2010 Pub-G employee mortality tables, adjusted 0.866 for females and 0.834 for males. For Safety active members, the sex distinct 2010 Pub-S employee mortality tables, adjusted 0.979 for females and 1.011 for males.

Rates are projected generationally from the base year using a modified version of the MP-2019 projection scale.

Benefit changes made prior to July 1, 2014 are amortized over closed 20-year periods as a level percentage of payroll.

The unfunded actuarial liability (UAL) as of July 1, 2013 not attributable to benefit changes was amortized over a closed 19-year period starting July 1, 2014.

Assumption changes and experience gains and losses are amortized over a closed 20-year period as a level percentage of payroll.

Increases in the UAL due to Supplemental COLAs are amortized over a closed 5-year period.

The long-term expected rate of return on pension plan investments was 7.20%. It was set by the Retirement Board after consideration of both expected future returns and historical returns experienced by the by the Retirement System. Expected future returns were determined by using a building-block method in which best estimate ranges of expected future real rates of return were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**NOTE 11 – PENSION PLANS (continued)**

**B. San Francisco Employees' Retirement System (SFERS) (continued)**

**Actuarial Assumptions (continued)**

Target allocation and best estimates of geometric long-term expected real rates of return (net of pension plan investment expense and inflation) for each major asset class are summarized in the following table:

<b>Asset Class</b>	<b>Target Allocation</b>	<b>Long-term Expected Real Rate of Return</b>
Global Equity	37.00%	4.80%
Treasuries	8.00%	0.60%
Liquid Credit	5.00%	3.50%
Private Credit	10.00%	5.80%
Private Equity	23.00%	7.90%
Real Assets	10.00%	4.70%
Hedge Funds/Absolute Return	10.00%	3.40%
Leverage	-3.00%	0.60%
	<b><u>100.00%</u></b>	

**Discount Rate**

The discount rate used to measure the total pension liability at June 30, 2023 was 7.20%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will continue to be made at the rates specified in the Charter. Employer contributions were assumed to be made in accordance with the contribution policy in effect for the July 1, 2022 actuarial valuation. While the contributions and measure of actuarial liability in the funding valuation do not anticipate any future Supplemental COLAs, the projected contributions for the determination of the discount rate include the anticipated future amortization payments on future Supplemental COLAs for current members when they are expected to be granted. The projection of benefit payments to current members for determining the discount rate includes the payment of anticipated future Supplemental COLAs.

As of June 30, 2023, the Retirement System's fiduciary net position was projected to be available to make projected future benefit payments for current members. Projected benefit payments are discounted at the long-term expected return on assets of 7.20% to the extent the fiduciary net position is available to make the payments and at the municipal bond rate of 3.65% to the extent that they are not available. The single equivalent rate used to determine the total pension liability as of June 30, 2023, rounded to two decimals is 7.20%.

The municipal bond rate of 3.65% used to determine the above discount rate represents the yield on the Bond Buyer 20-Bond GO Index.

**Pension Plan Fiduciary Net Position**

Detailed information about the pension plan's fiduciary net position is available in the separately issued SFERS financial report.

**NOTE 12 – RISK MANAGEMENT**

The District's risk management activities are recorded in the General Fund and Self-Insurance Fund. Employee life, supplemental health, and disability insurance programs are administered through the purchase of commercial insurance. Employee dental and workers' compensation insurance is provided on a self-funded basis.

Excess insurance coverage with Statutory Limits is purchased from Arch Insurance Group for workers' compensation losses of more than \$500,000 per claim (self-insured retention, or SIR). The District is also self-insured for excess property, general liability, crime, cyber and terrorism losses, and carries excess insurance coverage for each.

The District maintains excess property coverage through a layered approach for losses up to \$300,000,000 per occurrence, with a \$100,000 SIR. A layered coverage approach is also used for the General Liability insurance program with limits of \$55 million per occurrence, and a \$2,000,000 self-insured retention per claim. As part of that structure the District is a member of the Schools Excess Liability Fund (SELF) joint powers authority (JPA).

The District pays annual contributions to SELF for additional excess liability coverage over \$5M. The District also purchases student accident insurance which provides \$25,000 in coverage for families whose student was injured in an accident during school time. Coverage for excess earthquake losses is not maintained. For excess insurance programs there have been no significant reductions in insurance coverage to date.

Effective July 1, 2022, the District became a member of the Alliance for Schools Cooperative Insurance Programs (ASCP), a JPA. There were no settlements that surpassed the District's SIR(s) during the fiscal year.

**Claim Liabilities - Self Insurance Fund**

The District records an estimated liability for indemnity torts and other claims against the District. Claims liabilities for workers' compensation are based on a current actuarial study using the "expected value" as the basis for the total liability. The workers' compensation liabilities are reported at their present value using an expected future investment yield assumption of two percent. The following represents the changes in approximate aggregate liabilities for the District from July 1, 2022 to June 30, 2024:

	<b>Total</b>
Liability Balance, July 01, 2022	\$ 20,940,995
Claims & changes in estimates	27,240,794
Claims payments	<u>(25,449,789)</u>
Liability Balance, July 01, 2023	22,732,000
Claims & changes in estimates	30,427,644
Claims payments	<u>(29,208,644)</u>
Liability Balance, June 30, 2024	<u>\$ 23,951,000</u>

**NOTE 13 – COMMITMENTS AND CONTINGENCIES**

**A. Grants**

The District received financial assistance from federal and state agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2024.

**B. Litigation**

The District is involved in various litigation arising from the normal course of business. In the opinion of management and legal counsel, the disposition of all litigation pending is not expected to have a material adverse effect on the overall financial position of the District at June 30, 2024.

**C. Construction Commitments**

As of June 30, 2024, the District had commitments with respect to unfinished capital projects of \$98,138,585.

**NOTE 14 – PARTICIPATION IN JOINT POWERS AUTHORITIES**

The District participates in three joint ventures under joint powers authorities (JPAs), the School Project for Utility Rate Reduction (SPURR), the Schools Excess Liability Fund (SELF), and the Alliance for Schools Cooperative Insurance Programs (ASCP). The relationships between the District and the JPAs are such that the JPAs are not component units of the District for financial reporting purposes.

The JPAs have budgeting and financial reporting requirements independent of member units, and their financial statements are not presented in these financial statements. However, fund transactions between the JPAs and the District are included in these statements. The audited financial statements are generally available from the respective entities.

**NOTE 15 – DEFERRED OUTFLOWS/INFLOWS OF RESOURCES**

**A. Refunded Debt**

Pursuant to GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position* and GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, the District recognized deferred outflows or inflows of resources in the District-wide financial statements. The deferred outflow of resources pertains to the difference in the carrying value of the refunded debt and its reacquisition price (deferred amount on refunding). Previous financial reporting standards require this to be presented as part of the District's long-term debt. This deferred outflows and inflows of resources are recognized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or the new debt, whichever is shorter. At June 30, 2024, the deferred outflows related to refunding were \$1,687,394 and the deferred inflows related to refunding were \$4,251,740.

**B. Pension Plans**

Pursuant to GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*, the District recognized deferred outflows of resources related to pensions and deferred inflows of resources related to pensions in the District-wide financial statements. Further information regarding the deferred outflows of resources and deferred inflows of resources can be found at Note 11. At June 30, 2024, total deferred outflows related to pensions was \$266,068,126 and total deferred inflows related to pensions was \$124,624,959.

**C. Other Postemployment Benefits**

Pursuant to GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, the District recognized deferred outflows of resources related to other postemployment benefits and deferred inflows of resources related to other postemployment benefits in the District-wide financial statements. Further information regarding the deferred outflows of resources and deferred inflows of resources can be found at Note 10. At June 30, 2024, total deferred outflows related to other postemployment benefits was \$173,553,906 and total deferred inflows related to other postemployment benefits was \$440,077,890.

**D. Leases**

Pursuant to GASB Statement No. 87, *Leases*, the District recognized deferred inflows of resources related to leases in the District-wide financial statements. Further information regarding the deferred inflows of resources can be found at Note 3. At June 30, 2024, total deferred inflows related to leases was \$65,064,567.

**SAN FRANCISCO UNIFIED SCHOOL DISTRICT  
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION  
FOR THE YEAR ENDED JUNE 30, 2024**

---

**NOTE 1 – PURPOSE OF SCHEDULES**

**Budgetary Comparison Schedule**

This schedule is required by GASB Statement No. 34 as required supplementary information (RSI) for the General Fund and for each major special revenue fund that has a legally adopted annual budget. The budgetary comparison schedule presents both (a) the original and (b) the final appropriated budgets for the reporting period as well as (c) actual inflows, outflows, and balances, stated on the District's budgetary basis. A separate column to report the variance between the final budget and actual amounts is also presented, although not required.

**Schedule of Changes in Net OPEB Liability and Related Ratios**

This 10-year schedule is required by GASB Statement No. 75 for all sole and agent employers that provide other postemployment benefits (OPEB). Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 75 was applicable. The schedule presents the sources of change in the net OPEB liability, and the components of the net OPEB liability and related ratios, including the OPEB plan's fiduciary net position as a percentage of the total OPEB liability, and the net OPEB liability as a percentage of covered-employee payroll.

**Changes in Benefit Terms**

There were no changes in benefit terms since the previous valuation.

**Changes in Assumptions**

The discount rate changed from 4.10% to 5.40% since the previous measurement.

**Schedule of the District Contributions for OPEB**

This 10-year schedule is not required to be presented as there was no actuarially determined contribution, nor any contribution requirement established by statute or contract.

**Schedule of the District's Proportionate Share of the Net Pension Liability**

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 68 was applicable. The schedule presents the District's proportion (percentage) of the collective net pension liability, the District's proportionate share (amount) of the collective net pension liability, the District's covered payroll, the District's proportionate share (amount) of the collective net pension liability as a percentage of the employer's covered payroll, and the pension plan's fiduciary net position as a percentage of the total pension liability.

**Changes in Benefit Terms**

There were no changes in benefit terms since the previous valuations for CalSTRS or SFERS.

**Changes in Assumptions**

There were no changes in economic assumptions since the previous valuations for CalSTRS or SFERS.

**SAN FRANCISCO UNIFIED SCHOOL DISTRICT  
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION, continued  
FOR THE YEAR ENDED JUNE 30, 2024**

---

**NOTE 1 – PURPOSE OF SCHEDULES (continued)**

**Schedule of District Contributions**

This 10-year schedule is required by GASB Statement No. 68 for each cost-sharing pension plan. Until a full 10-year trend is compiled, the schedule will only show those years under which GASB Statement No. 68 was applicable. The schedule presents the District's statutorily or contractually required employer contribution, the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the difference between the statutorily or contractually required employer contribution and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution, the District's covered payroll, and the amount of contributions recognized by the pension plan in relation to the statutorily or contractually required employer contribution as a percentage of the District's covered payroll.

**NOTE 2 – EXCESS OF EXPENDITURES OVER APPROPRIATIONS**

For the year ended June 30, 2024, the District incurred an excess of expenditures over appropriations in individual major funds presented in the Budgetary Comparison Schedule by major object code, as follows:

	Expenditures and Other Uses		
	Budget	Actual	Excess
General Fund			
Other outgo			
Excluding transfers of indirect costs	\$ 3,927,322	\$ 4,119,138	\$ 191,816
Transfers of indirect costs	\$ (1,768,131)	\$ (1,348,517)	\$ 419,614

The General Fund ending fund balance has increased by \$174,951,710 over the past two years. However, the fiscal year 2024-25 budget projects a decrease of \$148,519,461. For a District this size, the State recommends available reserves of at least 2% of General Fund expenditures, transfers out, and other uses (total outgo).

The District has incurred operating surpluses in each of the past three years but anticipates incurring an operating deficit during the 2024-25 fiscal year. Total long-term obligations have decreased by \$335,543,462 over the past two years.

Average daily attendance has increased by 565 ADA over the past two years. A decrease of 737 ADA is anticipated during the 2024-25 fiscal year.

\*Available reserves consist of all unassigned fund balance within the General Fund.

\*\*The actual amounts reported in this schedule are for the General Fund only, and do not agree with the amounts reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances because the amounts on that schedule include audit adjustments.

NOTES TO SUPPLEMENTARY INFORMATION  
JUNE 30, 2024**

---

**NOTE 1 – PURPOSE OF SCHEDULES**

**Schedule of Expenditures of Federal Awards**

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

The following schedule provides reconciliation between revenues reported on the Statement of Revenue, Expenditures, and Changes in Fund Balance, and the related expenditures reported on the Schedule of Expenditures of Federal Awards. The reconciling amounts represent Federal funds that have been recorded as revenues in a prior year that have been expended by June 30, 2024 or Federal funds that have been recorded as revenues in the current year and were not expended by June 30, 2024.

Total Expenditures reported in the Schedule of Expenditures of Federal Awards		<u>\$ 118,042,531</u>

\* AL Number not applicable.

The District has not elected to use the 10 percent de minimis indirect cost rate.

**Schedule of Average Daily Attendance (ADA)**

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of state funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

**Schedule of Instructional Time**

This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the article 8 (commencing with section 46200) of chapter 2 of part 26 of the *Education Code*.

**Schedule of Financial Trends and Analysis**

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER  
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH

Independent Auditors' Report

Governing Board  
San Francisco Unified School District  
San Francisco, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of San Francisco Unified School District, as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the San Francisco Unified School District's basic financial statements, and have issued our report thereon dated February 28, 2025.

**Report on Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered San Francisco Unified School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of San Francisco Unified School District's internal control. Accordingly, we do not express an opinion on the effectiveness of San Francisco Unified School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as Finding #2024-001 to be a material weakness.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as Findings #2024-002 through #2024-005 to be significant deficiencies.

## **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether San Francisco Unified School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **San Francisco Unified School District's Response to Findings**

*Government Auditing Standards* requires the auditor to perform limited procedures on San Francisco Unified School District's response to the findings identified in our audit and described in the accompanying schedule of findings and questioned costs. San Francisco Unified School District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

## REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

### Independent Auditors' Report

Governing Board  
San Francisco Unified School District  
San Francisco, California

#### **Report on Compliance for Each Major Federal Program**

##### ***Opinion on Each Major Federal Program***

We have audited San Francisco Unified School District's compliance with the types of compliance requirements identified as subject to audit in the *OMB Compliance Supplement* that could have a direct and material effect on each of San Francisco Unified School District's major federal programs for the year ended June 30, 2024. San Francisco Unified School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, San Francisco Unified School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

##### ***Basis for Opinion on Each Major Federal Program***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* (*CFR*) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of San Francisco Unified School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on compliance for each major federal program. Our audit does not provide a legal determination of San Francisco Unified School District's compliance with the compliance requirements referred to above.

##### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of the laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to San Francisco Unified School District's federal programs.

### **Auditor's Responsibilities for the Audit for Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on San Francisco Unified School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user of the report on compliance about San Francisco Unified School District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding San Francisco Unified School District's compliance with compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of San Francisco Unified School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of San Francisco Unified School District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

### **Report on Internal Control Over Compliance**

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

## **Report on Internal Control Over Compliance (continued)**

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## REPORT ON STATE COMPLIANCE AND ON INTERNAL CONTROL OVER COMPLIANCE FOR STATE PROGRAMS

### Independent Auditors' Report

Governing Board  
San Francisco Unified School District  
San Francisco, California

#### **Report on State Compliance**

##### ***Opinion on State Compliance***

We have audited San Francisco Unified School District's compliance with the requirements specified in the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* applicable to San Francisco Unified School District's state program requirements as identified in the table in the Auditor's Responsibilities for the Audit of State Compliance section of our report for the year ended June 30, 2024.

In our opinion, San Francisco Unified School District complied, in all material respects, with the laws and regulations of the applicable laws and regulations of the applicable state programs for the year ended June 30, 2024.

##### ***Basis for Opinion on State Compliance***

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2023-2024 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting* (the K-12 Audit Guide). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of State Compliance section of our report.

We are required to be independent of San Francisco Unified School District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion. Our audit does not provide a legal determination of San Francisco Unified School District's compliance with the compliance requirements referred to above.

##### ***Responsibilities of Management for Compliance***

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of the laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to San Francisco Unified School District's state programs.

## **Auditor's Responsibilities for the Audit of State Compliance**

Our objectives are to obtain reasonable assurance about whether material noncompliance with the state compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on San Francisco Unified School District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the K-12 Audit Guide will always detect a material noncompliance when it exists. The risk of not detecting a material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about San Francisco Unified School District's compliance with the requirements of the applicable state programs as a whole.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, and the K-12 Audit Guide, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit;
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding San Francisco Unified School District's compliance with compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances;
- Obtain an understanding of San Francisco Unified School District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the K-12 Audit Guide, but not for the purpose of expressing an opinion on the effectiveness of San Francisco Unified School District's internal control over compliance. Accordingly, we express no such opinion; and
- Select and test transactions and records to determine San Francisco Unified School District's compliance with the state laws and regulations applicable to the following items:

<b>PROGRAM NAME</b>	<b>PROCEDURES PERFORMED</b>
<b>Local Education Agencies Other Than Charter Schools</b>

The term "Not Applicable" is used above to mean either the District did not offer the program during the current fiscal year, the District did not participate in the program during the current fiscal year, or the program applies to a different type of local education agency.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identify during the audit.

**Other Matters**

The results of our auditing procedures disclosed instances of noncompliance, which are described in the accompanying schedule of findings and questioned costs as Findings #2024-006 and #2024-007. Our opinion on state compliance is not modified with respect to these matters.

*Government Auditing Standards* requires the auditor to perform limited procedures on San Francisco Unified School District's response to the noncompliance findings identified in our audit and described in the accompanying schedule of findings and questioned costs. San Francisco Unified School District's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### ***Report on Internal Control Over Compliance***

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that a material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of State Compliance section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the K-12 Audit Guide. Accordingly, this report is not suitable for any other purpose.

<b>FIVE DIGIT CODE</b>	<b>AB 3627 FINDING TYPE</b>
20000	Inventory of Equipment
30000	Internal Control

**FINDING #2024-001: YEAR-END CLOSING (30000) (MATERIAL WEAKNESS)**

**Criteria:** According to generally accepted accounting principles (GAAP) and the district's internal financial policies, all accruals must be accurately recorded and supported by appropriate documentation. This ensures the reliability and accuracy of financial statements.

**Condition:** We could not sufficiently test the payroll accrual for accurate cut-off and found several material accruals not made during the year-end closing process. Reasons provided by the district staff included difficulties in finding details on the journal entries that would enable staff to pull supporting documents for individual accrual transactions and oversight.

**Cause:** The inaccuracies in the payroll and accounts receivable accruals and the lack of supporting documentation may be attributed to system limitations and inadequate internal controls over the year-end closing process, including insufficient review and approval procedures.

**Effect:** The payroll accrual, which comprised most of the accrued liabilities, the cut-off between fiscal years was not clean, and no backup was provided to the auditors. This is a significant deficiency in internal controls over financial reporting. The payroll expense overall appears reasonable, but the cut-off between the fiscal years is unclear.

**Repeat Finding:** This is a repeat finding, see Finding #2023-001.

**Recommendation:** It is recommended that the district strengthen accrued liability accounting by implementing the following measures:

1. **Strengthen Internal Controls:** Implement robust internal controls over the accrual process. This includes establishing clear procedures for calculating and recording accruals and ensuring that all accruals are reviewed and approved by a designated authority.
2. **Documentation Requirements:** Mandate that all accruals be supported by detailed documentation, such as payroll registers, timesheets, vendor invoices, and other relevant records. This documentation should be retained and readily available for audit purposes.
3. **Training and Awareness:** Provide training to the finance and payroll staff on the importance of accurate accrual accounting and the necessity of maintaining proper documentation. This will help ensure compliance with accounting standards and internal policies.
4. **Regular Reviews:** Conduct periodic reviews of the payroll accrual process to identify and address any discrepancies promptly. This can include internal audits or management reviews to ensure ongoing accuracy and compliance.

**Corrective Action Plan:** SFUSD's current payroll system (SAP) and pay schedule have presented challenges in accurately identifying accrual pay at the close of the fiscal year. To address this, corrective measures have been implemented for the fiscal year ending 2024-24, which include utilizing off-cycle pay runs to capture all end-of-year pay and stipends as we close the fiscal year in SAP.

SFUSD is also in current negotiations with all labor partners to move from a bi-weekly payroll cycle to semi-monthly, which will address the crossover from one fiscal year to another. SFUSD is transitioning to a K-12 designed ERP (Frontline) system. This will enhance the payroll process by automatically identifying and capturing all pay and allocations for accrual, ensuring greater accuracy and efficiency moving forward.

**SAN FRANCISCO UNIFIED SCHOOL DISTRICT  
FINANCIAL STATEMENT FINDINGS, continued  
FOR THE YEAR ENDED JUNE 30, 2024**

---

**FINDING #2024-002: PAYROLL-RELATED CONTROLS (30000)**

**Criteria:** Effective internal controls over payroll processing are essential to ensure accuracy, prevent fraud, and comply with regulatory requirements. This includes proper authorization, segregation of duties, and comprehensive documentation.

**Condition:** The audit of sixty payroll transactions revealed one overpayment to an employee plus four lack of timesheet approvals for employee payments. In one of the four cases where there was a lack of approval, a site clerk was instructed by a supervisor to approve the time.

**Cause:** The deficiencies are primarily due to insufficient oversight, lack of formalized procedures, and inadequate training of personnel responsible for payroll processing.

**Effect:** These control weaknesses increase the risk of errors, unauthorized payroll changes, and potential fraud. This could lead to financial losses and damage to the district's reputation.

**Repeat Finding:** This is a repeat finding, see prior year finding #2023-002.

**Recommendation:** It is recommended that the district strengthen payroll controls by implementing the following measures:

1. Review and improve controls to ensure payroll is correctly processed without error.
2. Provide site training to ensure all timesheets are approved and enforced at the district level before processing payroll.

**Corrective Action Plan:** To provide ongoing assurance, the internal auditor will conduct random audits of payroll transactions. This proactive approach is intended to identify and address any discrepancies or control issues as soon as they arise.

The Executive Director of Payroll will conduct routine reviews to ensure that all necessary approvals, including timesheet sign-offs, are in place before payroll is processed. This additional layer of oversight is designed to prevent unauthorized transactions.

**FINDING #2024-003: INTERNAL AUDIT FUNCTION (30000)**

**Criteria:** Education Code Section 42650 states that fiscally independent schools' districts, such as San Francisco Unified School District, require "a person designated as the district disbursing officer for the school district." Often, this role is filled by an internal auditor or department. Specifically for payroll and accounts payable warrant approvals, the internal auditor develops an audit plan to sample and test warrant backup support for compliance with district policy, procedures, and legal criteria. The auditor then approves each warrant batch based on the test sample results. In addition, a periodic review is to be done "of the districts' financial transactions and internal control pursuant to Government Code Section 1241.5." This code permits the county superintendent to audit the expenditures and internal controls of independent school districts. SFUSD is both a county office and independent school district. It is encouraged in the law and in best practice that a plan is put into place to periodically conduct internal control audits.

**SAN FRANCISCO UNIFIED SCHOOL DISTRICT  
FINANCIAL STATEMENT FINDINGS, continued  
FOR THE YEAR ENDED JUNE 30, 2024**

---

**FINDING #2024-003: INTERNAL AUDIT FUNCTION (30000) (continued)**

**Criteria (continued):** To aid the District in creating a good internal control review process and internal audit function there are many resources. For example, FCMAT has developed a Fiscally Accountable/Independent Risk Analysis to assist independent school districts in assessing internal controls. According to FMCAT, fiscally independent school districts “should continually monitor their accounting controls to ensure ongoing compliance with the requirements of Education Code Sections 42647 and 42650.” Other resources on the role and development of internal audit, risk management, governance and internal control processes can be found at, for example: the Institute of Internal Auditors’ website, the Government Finance Officers Association, and the Public Company Accounting Oversight Board (applicable for public companies but with useful information for governmental entities).

**Condition:** The District currently does not have an internal audit function. Due to the District’s size, complexity, and independent status, an internal audit function or internal auditor would be beneficial to the District’s operations. Included in the internal audit department can include fraud hotlines and other anonymous reporting options.

**Cause:** Lack of adequate policies and procedures to establish an internal audit function.

**Effect:** Without an internal audit function within the District, regular monitoring of internal controls may not take place.

**Repeat Finding:** This is not a repeat finding, see prior Finding #2023-004.

**Recommendation:** We recommend that the District review the needs of the District regarding an internal audit function. This is a process that should begin with Board review, Board Policy and establishment of the position or Department. External organizations can also provide internal audit type functions that would be beneficial to the District’s operations.

**Corrective Action Plan:** We are in the process of hiring an internal auditor whose primary responsibility will be to oversee payroll operations, monitor transactions, and ensure adherence to our internal controls. The internal auditor will be placed in the County Office side of SFUSD. The projected hire date is estimated to be May 30, 2025.

Our new ERP system has been selected and configured to align with best business practices. This system will enhance our process integrity by automating control measures and minimizing errors before payroll processing.

To provide ongoing assurance, the internal auditor will conduct random audits of payroll transactions. This proactive approach is intended to identify and address any discrepancies or control issues as soon as they arise.

The Executive Director of Payroll will conduct routine reviews to ensure that all necessary approvals, including timesheet sign-offs, are in place before payroll is processed. This additional layer of oversight is designed to prevent unauthorized transactions.

**SAN FRANCISCO UNIFIED SCHOOL DISTRICT  
FINANCIAL STATEMENT FINDINGS, continued  
FOR THE YEAR ENDED JUNE 30, 2024**

---

**FINDING #2024-004: FRAUDULENT INTERCEPTION OF AUTOMATIC PAYROLL BANK DEPOSITS (30000)**

**Criteria:** Effective internal controls require that any changes to employee direct deposit information be authorized by the employee and properly handled to prevent unauthorized access and potential fraud.

**Condition:** During the audit, we learned that “someone within the district” intercepted four (4) payroll automatic bank deposits by finding a weakness in internal control. The weakness was that no approval was required to change the routing of payroll automatic deposits, and four payroll checks were routed to the perpetrator’s bank account.

**Cause:** The lack of a formalized process for verifying and authorizing changes to direct deposit information has led to these unauthorized modifications. Additionally, there is insufficient monitoring and oversight of payroll system access.

**Effect:** Unauthorized changes to direct deposit information can result in misdirected payments, temporary employee financial loss, and potential legal liabilities for the district. It also undermines employee trust and the integrity of the payroll system.

**Repeat Finding:** This is a repeat finding.

**Recommendation:** We understand that corrective actions have been taken in the 2024-25 fiscal year. The actions should include:

1. Establish a formal process for verifying and authorizing changes to direct deposit information, including requiring written authorization from employees and payroll supervisor approvals.
2. Enhance system security by restricting access to payroll systems and regularly reviewing access logs.
3. Conduct regular audits of direct deposit changes to ensure compliance with established procedures.
4. Provide training for payroll staff on the importance of maintaining secure and accurate direct deposit information.

**Corrective Action Plan:** SFUSD has discontinued the self-service bank account change feature in Empower. Employees must now update their bank information manually by completing a direct deposit authorization request form and submitting it to the Payroll department for processing.

**SAN FRANCISCO UNIFIED SCHOOL DISTRICT  
FINANCIAL STATEMENT FINDINGS, continued  
FOR THE YEAR ENDED JUNE 30, 2024**

---

**FINDING #2024-005: UNTIMELY DEPOSIT OF CASH RECEIPTS (30000)**

**Criteria:** Effective internal controls require that cash receipts be deposited promptly to ensure accurate financial reporting, safeguard assets, and maintain liquidity. Typically, deposits should be made daily or within a relatively short time.

**Condition:** The audit identified that ten (10) out of sixty (60) cash receipts tested were not being deposited promptly. Delays between 1-5 months were observed between the receipt of funds and their deposit into the bank. All the exceptions were found at the school site level. Checks tested at the district office level had no exceptions.

**Cause:** The delays in timely depositing cash receipts at the school site level might be due to inadequate procedures, lack of staff training, and insufficient oversight of the cash handling process.

**Effect:** Untimely deposits increase the risk of theft, loss, and misappropriation of funds. It also leads to inaccurate financial records and potential cash flow issues.

**Repeat Finding:** This is not a repeat finding.

**Recommendation:** To address these issues, the following measures should be implemented:

1. Establish clear procedures for the timely deposit of cash receipts, including specific deadlines for deposits.
2. Enhance oversight by assigning responsibility for monitoring cash handling and deposit activities at the school site level.
3. Provide training for staff on proper cash handling procedures and the importance of timely deposits.
4. Conduct periodic internal audits of cash receipts and deposits to ensure compliance with established procedures.

Implementing these recommendations will help ensure the timely deposit of cash receipts, reduce the risk of financial loss, and improve the accuracy of financial reporting.

**Corrective Action Plan:** Accounting will send a memo to school sites to address the timely deposits, cash handling procedures, and deposit timelines. This information will also be posted on our GoFast login screen, OASIS bulletin, and SFUSD Accounting website. The SFUSD cashier will conduct monthly internal audits to determine which school sites are not depositing cash receipts in a timely manner. The SFUSD cashier or Accounting analyst will follow up with the school sites, identified in the audit, to review proper cash handling procedures with designated school site staff. All checks received by the school sites will need to be mailed directly to the Accounting Department for promptly deposits

**FINDING 2024-006: PROPOSITION 28 ART AND MUSIC IN SCHOOLS (40000) (continued)**

**Recommendation:** Improve the budgetary accounting to use of AMS funding is maximized, and no supplantation occurs. We also noted that documentation in employee contracts on their assignments in AMS could be improved.

**Corrective Action Plan:** Implement a structured mid-year and end-of-year review of all arts education FTEs to ensure proper allocation of funding sources. Adjust FTE assignments as necessary to maintain compliance with Proposition 28's supplemental funding requirements.

Monitor salary changes and funding allocations throughout the year to prevent an over-reliance on Proposition 28 funds. Improve forecasting mechanisms to ensure balance across all arts funding sources.

Work closely with CDE to advocate for timely hiring of Proposition 28-funded positions to prevent future disproportionate spending and unspent funds. Develop contingency plans to allocate funds effectively should hiring delays persist.

Establish regular internal audits to track Proposition 28 expenditures against other arts funding sources. Provide transparent reports to ensure compliance with Education Code requirements and align spending with district arts education goals.

The District will assign a staff person to ensure that the following actions are completed. By implementing these corrective actions, SFUSD will ensure Proposition 28 funds are used as intended, supplementing existing arts education programs while maintaining compliance with state regulations.

**FINDING #2024-007: IMMUNIZATIONS (40000)**

**Criteria:** As required by Title 17, California Code of Regulations Section 6025, pupils are required to have two doses of a varicella vaccine and two doses of a measles vaccine prior to admission into kindergarten or have a current medical exemption from varicella and measles on file. In addition, each pupil has two varicella vaccine doses and one Tdap dose as required by Title 17, California Code of Regulations Section 6025 prior to admission into 7th or 8th Grade, or has a current medical exemption from varicella or Tdap on file.

**Condition:** In testing a representative sample of immunization records for pupils enrolled in TK, K, or 7<sup>th</sup> Grade for the 2023-24 school year, auditors noted that thirty-five (35) of one hundred twenty (120) students tested were not in compliance with the vaccination requirements.

**Effect:** The District was not in compliance with the Education Code requirements related to pupil immunizations.

**Cause:** Administrative oversight.

**FINDING #2024-007: IMMUNIZATIONS (40000) (continued)**

**Questioned Costs:** \$428,322, based on disallowed ADA in the amount of 17.00 for grades TK-3 and 18.00 for grades 7-8. The calculation of this amount is shown below. The District has not revised its P2 Attendance Report to reflect the disallowed ADA.

Grade Span	Second Period Report ADA (Over)/Under Statement	Annual Report ADA (Over)/Under Statement	Derived Value of ADA	Questioned Cost
TK/Kindergarten through Third	(17.00)	(17.00)	\$ 12,582.86	\$ (213,909)
Seventh through Eighth	(18.00)	(18.00)	\$ 11,911.84	\$ (214,413)
				<b>\$ (428,322)</b>

There is no questioned cost related for the Annual Attendance Report since the District is not funded on Annual Attendance. The District's Annual Attendance Report has not been revised to reflect the revised Annual report listed on the Schedule of Average Daily Attendance.

**Repeat Finding:** This is a repeat finding, see prior year finding #2023-011.

**Recommendation:** We recommend that the District assigns a single person responsible for ensuring compliance and providing supporting documentation to the auditors. We also suggest that management periodically monitor immunization compliance on a sample basis for timely identification of deviation from District policy.

**Corrective Action Plan:** The Student Family Services Team, SFUSD, in collaboration with the Enrollment Center, is committed to making improvements to the immunization process across the District. SFUSD will assign a dedicated individual responsible for ensuring compliance and providing supporting documentation to the auditors. SFUSD will implement periodic monitoring of immunization compliance on a sample basis to ensure timely identification of deviations from District policy. SFUSD will work with site leaders and our LEAD team to exclude students to be in compliance with the rule.

**FINDING #2023-001: FINANCIAL REPORTING AND YEAR END CLOSING PROCEDURES (30000) (MATERIAL WEAKNESS)**

**Criteria:** The California Education Code, California School Accounting Manual, and best business practices require an entity to maintain a sound financial system that supports financial reporting and budget monitoring. Compliance with this requirement includes proper accruals as of year-end and maintaining proper supporting documentation for year-end accruals and the closing process. Management is responsible for the design, implementation, and maintenance of internal controls to ensure the financial statements are free from material misstatement, whether due to error or fraud. Additionally, the District should ensure that all applicable accounting principles are adhered to when preparing the financial statements.

**Condition:** We noted transactions that were not properly accounted for during substantive testing of balances and transactions as of and for the year ended June 30, 2023. We noted the following control weaknesses related to financial reporting:

- Understatement of resource 6762 revenue (Arts, Music, and Instructional Materials) and corresponding accounts receivable. Adjusting journal entries were posted to correct this item.
- Lacking implementation of GASB 87, Leases. The District is not internally tracking leases that fall under GASB 87. As a result, there is a risk that the accounting is incomplete. We recommend the usage of internal processes or external companies that provide this service.
- Lacking full implementation of GASB 96, Subscription Based Information Technology Agreements (SBITA). The District is not internally tracking SBITAs that fall under GASB 96. As a result, there is a risk that the accounting is incomplete. We recommend the usage of internal processes or external companies that provide this service.

**Cause:** District oversight of regular necessary closing entries.

**Effect:** Potential for incorrect reporting of balance sheet items and transactions.

**Repeat Finding:** This is a repeat finding, see prior year finding #2022-002.

**Recommendation:** The District is responsible for understanding and maintaining information related to year end accruals and journal entries to close its fiscal year financial reporting. Consistent supervision and adequately trained staff in all areas must be a high priority of the District. This would include closing each resource with proper accounts receivable, if applicable. We recommend that the District review and implement processes to ensure complete GASB 87, Lease, and GASB 96, SBITA, accounting.

**Corrective Action Plan:**

- **Understatement of Resource 6762 Revenue:** We will review and refine the revenue recognition process, establish stricter controls, and provide targeted training to staff involved in accounting and revenue reporting.
- **GASB 87, Leases Compliance:** We will implement a lease tracking system to monitor compliance with GASB 87, using specialized software or external expertise, and train accounting staff on lease accounting standards.
- **GASB 96, SBITA Compliance:** We will evaluate the need for external expertise or specialized software to manage Subscription-Based IT Agreements, ensuring our team is trained on GASB 96 requirements for accurate compliance and reporting.

**Current Status:** Partially implemented, see Finding #2024-001.

**FINDING #2023-002: PAY-RELATED CONTROLS (30000)**

**Criteria:** Maintaining sound internal control procedures over payroll requires the District to ensure all payments to employees are supported and be able to be recalculated using the employees' location on the salary schedule. Any deductions to pay and stipends should also be supported by salary schedule or approved listing of stipends.

**Condition:** Through our testing of internal controls over payroll, we tested the pay for 60 employees and noted that supporting documentation for one pay line adjustment for one employee could not be provided.

**Cause:** Insufficient controls over payroll.

**Effect:** The potential for irregularities in payroll.

**Repeat Finding:** This is a repeat finding, see prior year finding #2022-001.

**Recommendation:** We recommend that procedures be implemented to ensure that internal controls over payroll are followed. All pay should be supported by the salary schedule or employee contract. Any stipends should be included in the employee file or be supported by an approved stipend listing. Any deductions to gross pay should be supported.

**Corrective Action Plan:**

- **Review Processes:** Evaluate and update payroll/HR documentation and procedures to ensure accuracy.
- **Gross Pay Controls:** Implement controls for precise calculation of gross pay from salary schedules and timecards.
- **Stipend Verification:** Set up verification processes for stipends, including an approved listing and eligibility checks.
- **Staff Training:** Train payroll/HR staff on revised processes and controls.
- **Documentation Maintenance:** Keep thorough records of all payroll transactions, including stipends, deductions, and pay calculations.

**Current Status:** Not implemented, see Finding #2024-002.

**FINDING #2023-003: CAPITAL ASSETS AND CONSTRUCTION IN PROGRESS (20000) (30000)**

**Criteria:** The District should maintain a complete capital asset inventory listing, including a detail of any construction in progress balance related to capital projects existing at fiscal year-end. These assets should be depreciated in conformity with generally accepted accounting principles, tracked, accounted for, and properly valued. Strong internal controls and prudent accounting practices require the established and adherence to sound policies and procedures for capital assets.

**Condition:** The District does not appear to be tracking or maintaining an adequate capital asset listing related to construction in progress. The auditor noted that there is no construction in progress balance at June 30, 2023, even as the District has an active bond and construction program. Capital expenses are added to the capital asset listing and begin depreciation in the year the expense occurs. In accordance with GAAP, depreciation for construction in progress should not commence until the project is completed and the asset is in service.

**Cause:** Lack of adequate policies and procedures over tracking and reporting capital assets related to construction in progress.

**Effect:** Without completing regular updates of construction in progress listings, the District does not maintain adequate control over buildings, site improvements, and other assets as they relate to the government-wide financial statements and the related depreciation expenses. And depreciation expense might be over or understated.

**Repeat Finding:** This is a repeat finding, see prior year finding #2022-001.

**Recommendation:** The District should work internally and with their third-party consultant, Asset Valuation, to compile a listing construction in progress balances. Once projects and related information have been summarized, these balances should be transferred into the appropriate category and depreciated accordingly. The District should also establish and implement written policies and procedures related to tracking of construction in progress balance, capital assets additions, disposals, and calculation of depreciation expense.

**Corrective Action Plan:**

- **Establish Policies and Procedures:** Implement comprehensive policies and procedures for tracking and reporting capital assets associated with construction in progress.
- **Compile Listings:** Develop a detailed listing of construction in progress balances.

**Current Status:** Partially implemented.

**FINDING #2023-004: INTERNAL AUDIT FUNCTION (30000)**

**Criteria:** Education Code Section 42650 states that fiscally independent schools' districts, such a San Francisco Unified School District, require "a person designated as the district disbursing officer for the school district." Often, this role is filled by an internal auditor or department. Specifically for payroll and accounts payable warrant approvals, the internal auditor develops an audit plan to sample and test warrant backup support for compliance with district policy, procedures, and legal criteria. The auditor then approves each warrant batch based on the test sample results. In addition, a periodic review is to be done "of the districts' financial transactions and internal control pursuant to Government Code Section 1241.5." This code permits the county superintendent to audit the expenditures and internal controls of independent school districts. SFUSD is both a county office and independent school district. It is encouraged in the law and in best practice that a plan is put into place to periodically conduct internal control audits.

To aid the District in creating a good internal control review process and internal audit function there are many resources. For example, FCMAT has developed a Fiscally Accountable/Independent Risk Analysis to assist independent school districts in assessing internal controls. According to FMCAT, fiscally independent school districts "should continually monitor their accounting controls to ensure ongoing compliance with the requirements of Education Code Sections 42647 and 42650." Other resources on the role and development of internal audit, risk management, governance and internal control processes can be found at, for example: the Institute of Internal Auditors' website, the Government Finance Officers Association, and the Public Company Accounting Oversight Board (applicable for public companies but with useful information for governmental entities).

**Condition:** The District currently does not have an internal audit function. Due to the District's size, complexity, and independent status, an internal audit function or internal auditor would be beneficial to the District's operations. Included in the internal audit department can include fraud hotlines and other anonymous reporting options.

**Cause:** Lack of adequate policies and procedures to establish an internal audit function.

**Effect:** Without an internal audit function within the District, regular monitoring of internal controls may not take place.

**Repeat Finding:** This is not a repeat finding.

**Recommendation:** We recommend that the District review the needs of the District regarding an internal audit function. This is a process that should begin with Board review, Board Policy and establishment of the position or Department. External organizations can also provide internal audit type functions that would be beneficial to the District's operations.

**Corrective Action Plan:** The District will commence an immediate review to assess the need for an internal audit function located under the district or county office of education; and simultaneously develop necessary policies and procedures. This development process aims to produce a draft policy by July 2024, which will be presented for approval at the September 2024 Board meeting. Upon approval, the District will determine if it should proceed to either recruit an internal auditor, create an internal audit division at the county office of education, or establish a partnership with an external organization by December 2024, ensuring access to essential auditing expertise.

**Current Status:** Not implemented, see Finding #2024-003.

**FINDING #2023-005: CONTROLS OVER DISTRICT CREDIT CARDS (30000)**

**Criteria:** The District should establish, maintain and enforce credit card policies that contain procedures for proper approvals and uses of District credit cards. District credit card policies and procedures should enforce the following:

- Only authorized users are provided with and may use the credit cards.
- Deadlines for submitting proper expenditure support are met.
- Prior approvals for purchases are obtained and documented.
- The Business Department is receiving all appropriate supporting documentation and monitoring monthly expenditures for appropriateness and reasonableness.

**Condition:** Through our testing of credit cards, we noted the following deficiencies:

- 1 credit card purchase was missing a receipt or invoice to support the purchase.
- 2 credit card purchases appeared to be miscoded. These transactions were coded to Object 5890 (professional services) while it appears they should be coded to Object 5200 (travel and conferences)

**Cause:** Approved policies are not being properly followed.

**Effect:** There is a risk of fraud and abuse of District funds through unauthorized or unsupported credit card purchases.

**Repeat Finding:** This is not a repeat finding.

**Recommendation:** We recommend that the District develop and implement a credit card usage policy. Credit card holders should be aware of the requirements for use of credit cards including the pre-approval of credit card purchases, submission of original credit card receipts, and monthly reconciliations and monitoring of the credit card purchases by the Business Office.

**Corrective Action Plan:**

- **Credit Card Usage Policy:** Develop and implement a comprehensive policy for credit card use, including pre-approval of purchases and submission of original receipts. Provide training to cardholders on these requirements.
- **Reconciliations and Monitoring:** Conduct monthly reconciliations and monitoring of credit card transactions to ensure compliance and accuracy.

**Current Status:** Implemented.

**FINDING #2023-006: PUBLIC WORKS PROJECTS REGISTRATION WITH DEPARTMENT OF INDUSTRIAL RELATIONS (30000)**

**Criteria:** All public works projects must be registered with the State (using Form PWC-100) and all contractors selected must be registered with the Department of Industrial Relations (DIR). The completion and the submission of this form fulfills the required public works project award notification as required by Labor Code sec. 1773.3, 1773.35, and 8 Cal. Code Reg. sec. 16451(a)

**Condition:** 1 out of 1 informal bid tested was not registered with the DIR (using Form PWC-100).

**Effect:** The District is not in compliance with public works project award notification as required by Labor Code sec. 1773.3, 1773.35, and 8 Cal. Code Reg. sec. 16451(a)

**Cause:** Inconsistent procedures involving bid practices.

**Repeat Finding:** This is not a repeat finding.

**Recommendation:** We recommend the District develop a process so that all projects are registered with the Department of Industrial Relations (DIR) through the use of Form PWC-100 following project award.

**Corrective Action Plan:**

- **Establish Registration Protocol:** Implement a protocol to ensure all projects are registered with the Department of Industrial Relations using Form PWC-100 immediately upon project award.

**FINDING #2023-007: ALLOWABLE COSTS/COST PRINCIPLES – TIME AND EFFORT REPORTING (50000)**

**Assistance Listing Number and Title:** 84.010 - ESEA (ESSA): Schoolwide Programs (SWP)

**Federal Grantor Name:** U.S. Department of Education; Passed through California Department of Education

**Criteria:** Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, requires an accounting for personnel time on multi-funded positions by the time spent on each program and to semi-annually certify positions charged 100% to federal programs. Standards for Documentation of Personnel Expenses Charges to Federal awards for salaries and wages must be based on records that accurately reflect the work performed. These records must:

- Be supported by a system of internal control which provides reasonable assurance that the charges are accurate, allowable, and properly allocated;
- Be incorporated into the official records of the non-Federal entity
- Reasonably reflect the total activity for which the employee is compensated by the non-Federal entity, not exceeding 100% of compensated activities
- Encompass both federally assisted and all other activities compensated by the non-Federal entity on an integrated basis, but may include the use of subsidiary records as defined in the non-Federal entity's written policy;
- Comply with the established accounting policies and practices of the non-Federal entity.
- Support the distribution of the employee's salary or wages among specific activities or cost objectives if the employee works on more than one Federal award; a Federal award and non-Federal award; an indirect cost activity and a direct cost activity; two or more indirect activities which are allocated using different allocation bases; or an unallowable activity and a direct or indirect cost activity.
- Budget estimates (i.e., estimates determined before the services are performed) alone do not qualify as support for charges to Federal awards but may be used for interim accounting purposes.

**Condition:** Auditor selected employees with salaries coded to the federal programs noted above. The following deficiencies were noted:

- ESEA (ESSA): Schoolwide Programs (SWP) (Resource 3150): 2/60 employees tested with salaries coded to the program during the fiscal year did not have time certifications on file for the 2022-23 year.

**Cause:** The District has not been following its policy for proper time accounting.

**Effect:** The District is not in compliance.

**Questioned Costs:** Although the District was not in compliance, we were able to review alternative documentation to determine that employees charged to the program were allowable.

**Repeat Finding:** This is a repeat finding, see prior year finding #2022-008.

**FINDING #2023-008: SCHOOL ACCOUNTABILITY REPORT CARD (72000)**

**Criteria:** School Accountability Report Cards (SARCs) should contain information regarding school facility conditions, as indicated in the most recently prepared facility inspection tool (FIT) form or a local evaluation instrument that meets the same criteria, as per Education Code Sections 33126(b)(8) and 1700(d).

**Condition:** The District was unable to provide the FIT form for Asawa School of the Arts, used to prepare the 2021-22 SARC published during the 2022-23 school year, for applicable state compliance testing.

**Cause:** The District could not locate the FIT form for Asawa School of the Arts.

**Effect:** The District is not in compliance with the related sections of California Education Code.

**Questioned Cost:** There are no questioned costs associated with this finding.

**Repeat Finding:** This is not a repeat finding.

**Recommendation:** We recommend the District retains required reports and paperwork related to the SARC preparation.

**FINDING #2023-009: CALIFORNIA CLEAN ENERGY JOBS ACT (40000)**

**Criteria:** Public Resource Code (PRC) Section 26240(b) requires an entity to submit a report of its project expenditures to the Citizens Oversight Board, not sooner than one year but no later than 15 months after an entity completes its first eligible project with a grant, loan, or other assistance from the Job Creation Fund.

**Condition:** Based on review and testing of CA Clean Energy Jobs Program at San Francisco Unified School District, it was noted that the final expenditure report was not submitted within the required deadline of 12 - 15 months after the project completion date. Listed below are the projects where the final report was not submitted in a timely manner.

Date of Completion	Description of the Project	Date of Report Submission
August 9, 2019	New School San Francisco - installation of sensors, plugs, and exterior lightings	June 29, 2022
October 31, 2018	Wells High - Installation of smart plugs	June 29, 2022
March 17, 2020	Lowell High - installation of sensors, plugs, and exterior lightings	June 29, 2022
October 5, 2017	Lau Elementary - Installation of smart plugs	June 29, 2022
January 22, 2019	Jefferson Elementary - Installation of smart plugs	June 29, 2022
December 26, 2018	Lawton Alternative Elementary - installation of sensors, plugs, and exterior lightings	June 29, 2022
March 5, 2021	Spring Valley Elementary - installation of sensors, plugs, and exterior lightings	June 29, 2022
May 30, 2020	Fransico Middle - retrofitting and installation	June 29, 2022
September 24, 2019	Hoover Middle - Installation of smart plugs	June 29, 2022
September 17, 2019	Marina Middle - replacement of windows	June 29, 2022
October 31, 2018	Carver Elementary - Installation of smart plugs	June 29, 2022
December 4, 2018	New Traditions Elementary - retrofitting and installation	June 29, 2022

**Questioned Costs:** No questioned costs.

**Repeat Finding:** This is not a repeat finding.

**Recommendation:** We recommend that the District submit the final expenditure reports for the District's CA Clean Energy Jobs projects.

**Corrective Action Plan:**

- **Expenditure Reports:** Submit the final expenditure reports for the District's California Clean Energy Jobs projects.

**Current Status:** California Clean Energy is no longer tested for State Compliance per the Education Audit Appeals Panel.

**FINDING #2023-010: COMPREHENSIVE SCHOOL SAFETY PLAN (40000)**

**Criteria:** Pursuant to California Education Code Sections 32280 - 32289, All California public schools kindergarten and grades one through twelve must develop a comprehensive school safety plan approved by the board of directors by March 1<sup>st</sup> of the current 2022-23 school year. Additionally, if the District does not develop and approve a comprehensive school safety plan by October 15, a letter must be submitted to the State Superintendent of Public Instruction.

**Condition:** In testing the comprehensive school safety plan at S.F. Woodside Learning Center, it was noted that a comprehensive school safety plan was not approved prior to the required deadline of March 1<sup>st</sup> for the current audit year.

**Effect:** The School District was untimely adhering to comprehensive school safety requirements per California Education Code.

**Cause:** Insufficient review procedures in place during the implementation process.

**Questioned Costs:** If a school is found to be willfully non-compliant, a fine of \$2,000 may be imposed. As of the audit visit, the District had not submitted a letter to the State Superintendent of Public Instruction by October 15 providing the reasons for non-compliance.

**Repeat Finding:** This is a repeat finding, see prior year finding #2022-005.

**Recommendation:** We recommend that the District continue to provide oversight and training to staff responsible for implementing new requirements in California Education Code in a timely manner. In addition, we recommend that the District submit the required letter to the State Superintendent of Public Instruction providing the reasons of non-compliance.

**FINDING #2023-011: IMMUNIZATIONS (40000) (continued)**

**Questioned Costs:** \$8,434, based on disallowed ADA in the amount of 0.73 for grades TK-3. The calculation of this amount is shown below. The District has not revised its P2 Attendance Report to reflect the disallowed ADA.

Grade Span	Second Period Report ADA (Over)/Under Statement	Annual Report ADA (Over)/Under Statement	Derived Value of ADA	Questioned Cost
TK/Kindergarten through Third	(0.73)	(0.74)	\$ 11,553.77	\$ 8,434
	(0.73)	(0.74)		\$ 8,434

There is no questioned cost related for the Annual Attendance Report since the District is not funded on Annual Attendance. The District's Annual Attendance Report has not been revised to reflect the revised Annual report listed on the Schedule of Average Daily Attendance.

**Repeat Finding:** This is a repeat finding, see prior year finding #2022-006.

**Recommendation:** We recommend that the District assigns a single person responsible for ensuring compliance and providing supporting documentation to the auditors. We also suggest that management periodically monitor immunization compliance on a sample basis for timely identification of deviation from District policy.

**Corrective Action Plan:**

- **Immunization Records:** Designate an individual to oversee compliance, monitor immunization compliance, and promptly flag any deviations from District policy.

**Current Status:** Not implemented, see Finding #2024-007.
